Inspiration Series

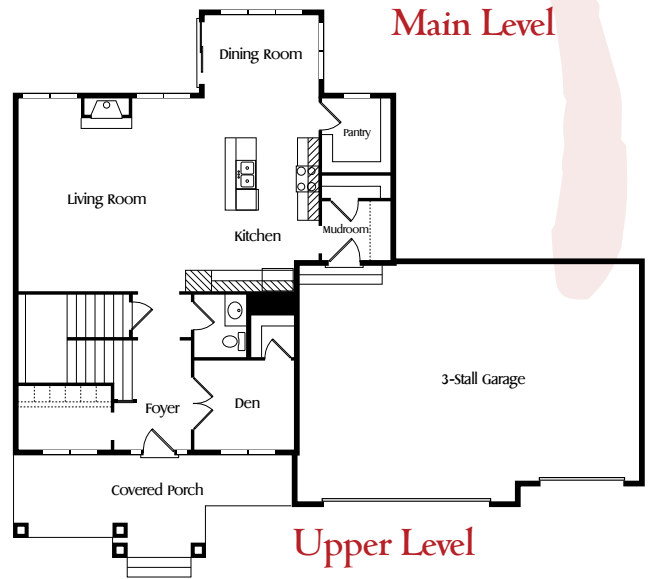

If you are looking for a show stopping house plan, look no further.

The Audrey is a large home with many unique touches such as an oversized entry closet with lockers, second level loft, and sunroom in the master bedroom. This home includes a fireplace, den, powder bath, and walk in pantry on the main level and 4 bedrooms, 3 bathrooms, and laundry on the second level.

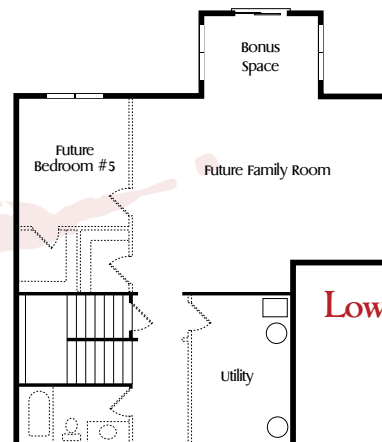

Complete your home with a finished basement or upgrade to a tiled shower for that unique touch.
